Profile

Full-stack MERN Developer with hands-on experience building responsive, scalable, and high-performance web applications using React.js. Skilled in developing reusable UI components, integrating RESTful APIs, implementing secure authentication, and optimizing application performance. Strong foundation in Data Structures, Algorithms, and Software Development Lifecycle, with a track record of delivering and deploying full-stack production applications end-to-end.

Technical Skills

- **Languages:** Java, JavaScript (ES6+), TypeScript (basic), C++
- **Frontend:** React.js, Context API, HTML5, CSS3, Bootstrap, Tailwind CSS, Redux, Responsive Web Design, Mobile-First Design, Reusable UI Components
- **Backend & APIs:** Node.js, Express.js, RESTful API Development, API Integration, Asynchronous JavaScript (Promises, async/await), JWT Authentication, Passport.js
- **Databases:** MongoDB, Mongoose, SQL
- **Tools & Platforms:** Git, GitHub, Postman, Render, MongoDB Atlas, Cloudinary, Razorpay
- **Core Competencies:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Software Development Lifecycle (SDLC), Web Performance Optimization, SEO-Friendly Markup, Cross-Browser Compatibility, Scalable Application Development
- **Soft Skills:** Problem-Solving, Team Collaboration, Communication, Attention to Detail, Adaptability, Time Management

Projects

QuickCare Connect — Full-Stack MERN Healthcare Application

Feb 2026 – Mar 2026

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Razorpay

- Built a responsive healthcare platform serving three user roles (patient, doctor, admin) across 16 page views, architecting 10 reusable React.js UI components to ensure a consistent, seamless experience across all workflows.
- Designed and secured 24 RESTful API endpoints across three role-based route groups (admin, doctor, user) with JWT-based authentication and async/await data handling, covering appointment booking, doctor management, and admin operations.
- Integrated the Razorpay payment gateway end-to-end (order creation, checkout, and signature verification), enabling secure online consultation payments.
- Improved application performance and load times through code-splitting and optimized rendering, while ensuring cross-browser compatibility.
- Deployed the full stack (frontend, backend, admin dashboard) independently on Render with production-grade environment variable and CORS configuration.

WanderLust — Full-Stack Marketplace Application

Oct 2025 – Jan 2026

Tech Stack: Node.js, Express.js, MongoDB, HTML5, CSS3, Bootstrap, Passport.js, Cloudinary, Mapbox

- Architected a full-stack marketplace using the MVC design pattern with 15 RESTful API endpoints across listings, reviews, and user authentication, spanning 7 core page views and 4 reusable EJS partials (navbar, footer, flash messages, layout boilerplate).
- Implemented nested resource routing (reviews scoped to listings via mergeParams) and a dedicated search-suggestions endpoint for real-time listing discovery.
- Designed SEO-friendly, structured, and accessible web pages using HTML5, CSS3, and Bootstrap, improving discoverability and page-level SEO scoring.
- Modeled scalable MongoDB schemas with GeoJSON to power Mapbox-based location search and map rendering.
- Implemented secure user authentication and session management using Passport.js, and enabled image uploads via Cloudinary.
- Deployed and maintained the application on Render with MongoDB Atlas, configuring production-ready environment variables and database connections.

YouTube Clone — React/Redux Application

Aug 2025 – Sep 2025

- Developed a responsive React.js application integrating the YouTube Data API, with Redux-based global state management for dynamic, real-time content rendering.
- Optimized component re-rendering and API call efficiency, ensuring smooth performance and full responsiveness across devices.

Education

B.Tech in Mechanical Engineering — NIT Andhra Pradesh

2021 – 2025

XII (CBSE) — Vivekananda Vidya Mandir

2020

Certifications

- MERN Stack Developer Certification — Apna College
- Java Certification — Apna College

Interests

Painting & Sketching • Baking & Dessert Styling • Home Decor & Aesthetic Setup
